

2010 Student Protest

Thousands of students have taken to the streets in UK-wide protest against increased university tuition fees. The protests were held in opposition to planned spending cuts to further education and an increase of the cap on tuition fees by the Conservative-Liberal Democrat coalition government following their review into higher education funding in England. Student groups said that the intended cuts to education were excessive, would damage higher education, give students higher debts, and broke campaign promises made by politicians.
