VisionSpring

VisionSpring is a social enterprise founded to provide glasses that are affordable for people in developing countries, such as India. These glasses improve job opportunities for many people in rural areas.

VisionSpring supplies local small businesses, that sell its glasses, and also trains the business owners to conduct eye tests in local villages. 5

Each pair of glasses costs VisionSpring £1 to make and deliver, which the small business buys for £2 and sells to customers for £4. As every step of the chain is profitable, the business model is sustainable.

VisionSpring's current growth strategy is to reinvest its profits to expand the scheme, but it is also considering obtaining loans from established businesses in developing countries. 10

One such business is ITC, a tobacco company in India that supplies the majority of village shops.
